STATINTL

Friday - 9 February 1951

1. Mr. Sims of the office of Sen. Humphrey called to inquire regarding an employee who stated he was in the CIA training school preparatory to going abroad as a CIA agent. He had requested Sen. Humphrey to assist him in securing cover for his assignment, which Sen. Humphrey agreed to do if CIA was willing. Mr.

[redacted] pointed out how embarrassing this could prove for Sen. Humphrey if the cover was blown. The propriety and security of the employee's request was also considered. [redacted] informed Mr. Sims that he should refer the individual

back to his case officer and that the Senator should drop the matter entirely. STATINTL

[redacted]  
[redacted] I called Mr.

Gleason at the NSC, who in turn inquired of Charles Murphy, Counsel to the President. Mr. Murphy stated that the case had not yet reached him although an unfavorable decision was expected. He would inform us as soon as he heard of any decision, so that the Director could intervene with the President.
